Local Performance Compared to Norm Group Stanines

The graphs below show the percentage of your students by stanine in each of three norm groups: National, Suburban, and Independent Schools. Stanines are a way of grouping students with similar percentile ranks into nine categories of performance. In general, students are performing below average in stanines 1-3, average in stanines 4-6, and above average in stanines 7-9. For reference purposes, the graphs also include the percentage of all students in each norm group by stanine.
