

SEL SOCIAL AND EMOTIONAL
LEARNING SUITE

A One-Stop Solution for Social and Emotional Learning

Discover our SEL Suite, a comprehensive system that delivers everything teachers need to support their students and transform their classrooms.

Meet today's challenges with a new solution

Students have always felt pressure, but 21st-century learners feel it even more. You see evidence on their faces and in their test scores. When students feel overwhelmed, they can't do their best. Our program aims to drive students' academic potential while quelling areas of stress.

Developed in partnership with industry leader RethinkEd, our Social and Emotional Learning Suite (SEL) empowers educators with the critical elements of effective social and emotional learning in a single platform.

-  **Assessment**
A biannual student assessment that offers insight and skill-building to help students Grades 3-8 become strong learners.
-  **Curriculum**
120 flexible and relatable lessons and quizzes for all learners in Grades K-12.
-  **Professional Development**
On-demand, flexible tools that help teachers learn more about SEL skills that last for life.

Built on the CASEL framework

Aligned with the well-respected CASEL framework, the system doesn't just measure and assess. It helps teachers build action plans for students that map to CASEL's five competencies:

Proven long-term results

The academic performance of students exposed to social and emotional programs was an average of 13 percentage points higher than their non-SEL peers.*

Increased positive attitudes toward self, others and school, as well as the development of social and emotional skills.*

Decreased drug use, conduct problems, and emotional distress.*

There is mounting empirical evidence to support the claim that SEL provides teachers with the strategies, culture and collaboration they need in their school day to reduce their stress and optimize their teaching.
